Re: The Properties of Eagles Quay
at Sylvan Lake

Dear Rick,

I want to thank you for the work done by PRO-CARE during the development of The Properties of Eagles Quay . PRO-CARE, under your guidance provided exceptional workmanship and attention to detail. The subdivision at Eagles Quay was completed in November, 2008 and without question sets a new high standard for lakeshore development.

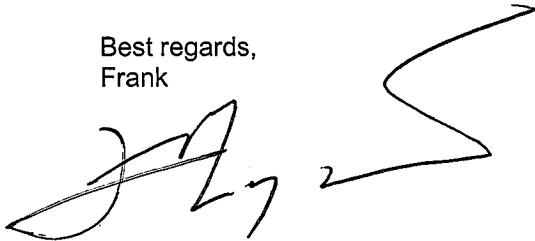

PRO-CARE was a significant member of the team that worked so diligently to make sure Eagles Quay would be a development to be respected and looked upon as the best way to subdivide recreational property for the benefit of all Albertans.

Many of the improvements for the development were new and had never before been required by Lacombe County. You worked closely with Lacombe County to establish the proper new standard. In particular, your careful and patient design and installation of the stairs on the property exemplifies the high integrity that PRO-CARE brings to the work it performs for it's clients.

As you know, I have always been dedicated to ensuring that The Properties of Eagles Quay would be known and respected as a thoughtful and caring development utilizing only the highest standards.

We achieved that goal and you and PRO-CARE were key members of the team responsible for our success.

Best regards,
Frank
